**Notes**: When joining Additional Locker Units, replace (1) of the End Panels with (1) Horizontal Frame, (2) Vertical Frames "one in front and one in back", (2) Leveling Plates "one in front and one in back", and (1) Side Panel.

The End Panel will be relocated at the "Open End" to create a Closed Locker System.

Double Tier Lockers are placed on the top of the Bottom Locker after the proper Space Blocks have been secured to the Bottom Locker with the bolts provided. The Upper Tier is then secured through the Space Blocks using the additional hardware included.
