

CYCLESAFE ELECTRONIC ACCESS SYSTEM PROPARK® SERIES

As a pioneer in developing the most secure, versatile and cost effective bike lockers, CycleSafe now offers users convenient electronic access via a Trilogy® Networx™ Wireless Lock System.

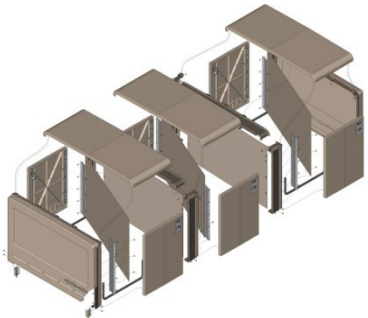

Combining four world class product solutions to provide electronic access and remote management of CycleSafe's ProPark® Series Bicycle Lockers, promoting community cycling just couldn't be easier.

In addition to traditional keypad access, the PDL6100 supports all HID™ format proximity technology ID cards and fobs.

Finally, with the addition of CA3000 software and WebVantage® Booking Management and Payment System, fulfillment is fast, convenient and secure. Available with Premium and Ultimate Electronic Access for on demand or online reservation programs.

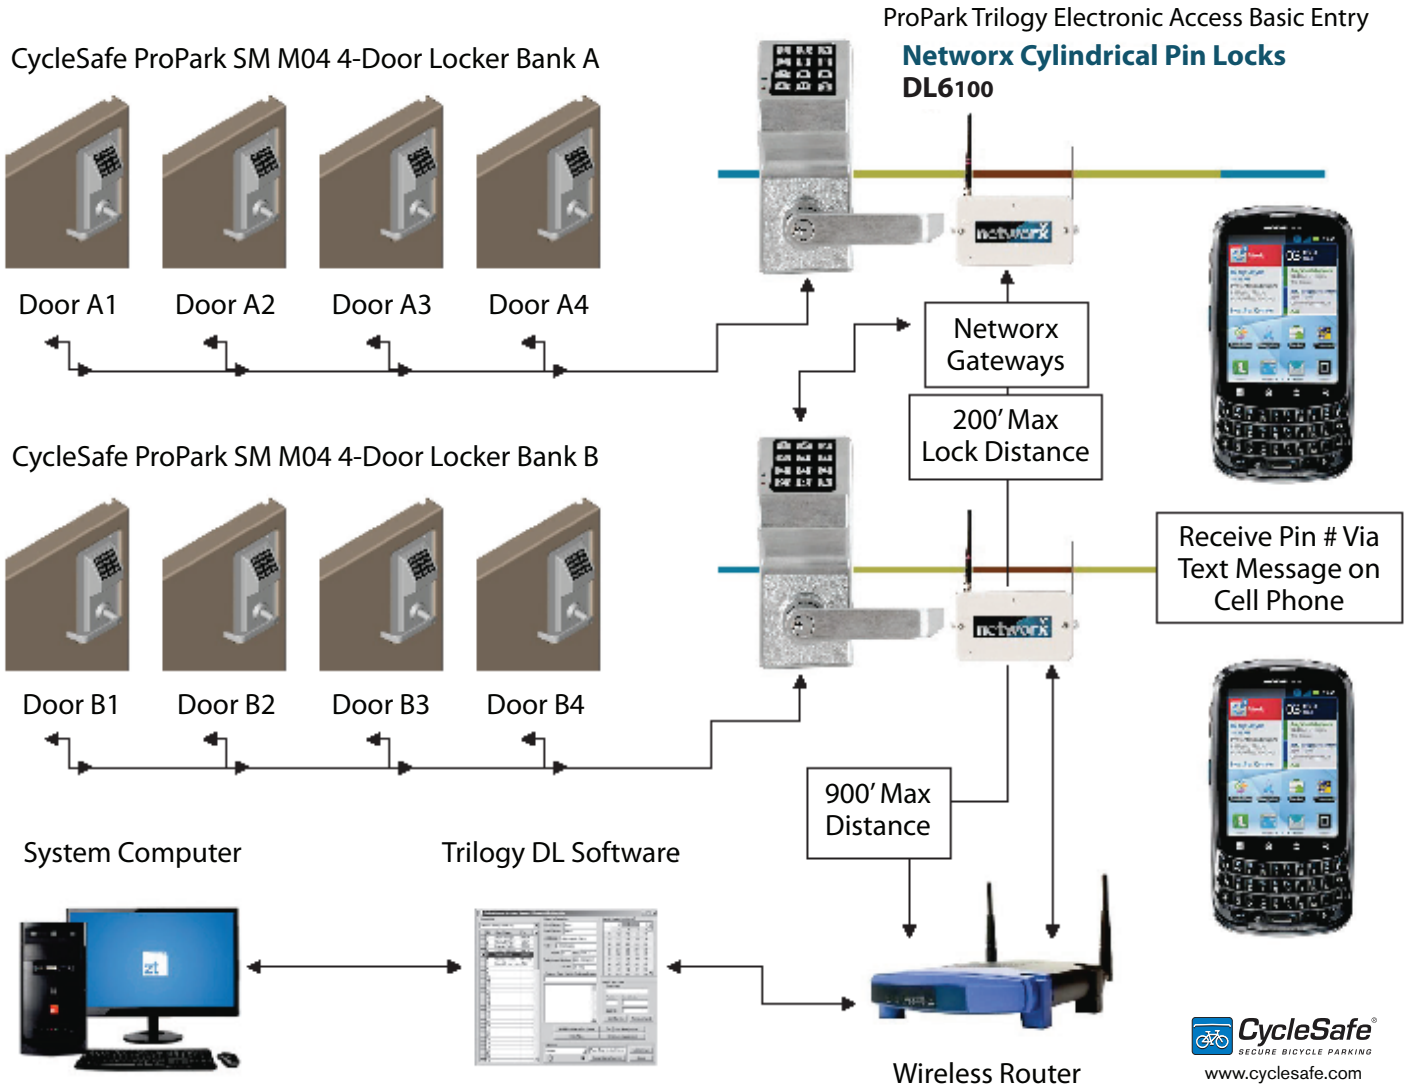

BUILDING BLOCKS

 <p>CycleSafe ProPark Locker System</p>	<p>CycleSafe continues to set the standard for durable products that withstand the test of time. Our solutions provide long term value with the lowest cost of ownership for any commuter bicycle storage system on the market. CycleSafe products installed over 30 years ago are still in use.</p> <p>Our complete line of modern bicycle parking solutions are manufactured to ISO 9001/14000 for quality and environmental standards utilizing environmentally friendly processes.</p> <p>CycleSafe's bicycle lockers serve over 10 million users a year. Our products are engineered for convenience and security for the cyclist, with quality finishes and materials.</p>
 <p>Trilogy Networkx locks DL6100/PDL6100</p>	<p>Trilogy Networkx Locks eliminate manual programming and provides audit trail retrieval by communicating wirelessly via Ethernet or 802.11B/G, with Trilogy standalone lock's functionality.</p> <p>Networked to any non-dedicated Windows based PC with a Grade 1 wireless access lock per door, communicating to a single gateway to control up to 63 locks and installs in about an hour.</p> <p>This system allows a quick, easy, economical access system with advanced features such as automatic schedules, event logs and support for up to 2000 doors or 5000 existing Prox. ID Cards/ Badges with no wires, access panels or power supplies to buy or install.</p>
 <p>Trilogy Windows-DL Lock Management Software</p>	<p>Trilogy Windows-based license free software included for user data/schedules, audit trails and lock programming, using a remote PC or laptop. Available with the CycleSafe Basic, Standard, Premium and Ultimate electronic access configurations.</p>
 <p>Internet Booking & Payment Management System</p>	<p>WebVantage Web-based software used for online payment and management, available with CA3000 Lock Management Software for the CycleSafe Premium and Ultimate electronic access configurations only.</p>
